Section 3: Your representation

Please set out and explain your comments. Please be as precise as possible, and please do not just refer to an attached supporting document(s). For your representation (comments) to be considered, your representation must be set out here. Wherever possible, set out precisely any changes you think should be made to the plan and its policies.

We note that the policy refers to tranquillity within criterion 1(a), however, the Greater Cambridge Landscape Sensitivity Assessment appears to focus on landscape sensitivity rather than tranquillity and views. It would be helpful to clarify whether additional evidence exists which assesses tranquillity and sensitive views, particularly where these may have implications beyond the Greater Cambridge boundary and into Central Bedfordshire.

In addition, criterion 2 of policy CC/RE would benefit from closer alignment with the recognised mitigation hierarchy. CBC suggest that the policy wording is amended to provide a clearer framework for managing environmental impacts associated with renewable energy development.

2. Proposals must seek to prevent, avoid or reduce adverse impacts during construction and operation, wherever possible before considering offsetting or compensation measures.

Please provide a 100 word summary of your representation.
