Section 3: Your representation

Please set out and explain your comments. Please be as precise as possible, and please do not just refer to an attached supporting document(s). For your representation (comments) to be considered, your representation must be set out here. Wherever possible, set out precisely any changes you think should be made to the plan and its policies.

We welcome the inclusion of a requirement for safe access in 1.d. You may wish to further define what is considered as safe access, either in the policy itself or the supporting text. For example, is a dry route of escape required or is some depth of flood water along the route acceptable? This point should also clarify when emergency plans need to be provided.

In parts 1i & 1j we recommend changing '*plus an allowance for climate change'* to '*including an appropriate allowance for climate change.*'

In part 1j the allowance should be changed to **600mm** above the 1 in 100-year flood level (including an allowance for climate change), as this is our current requirement.

Recommended Additions to Policy CC/FM

Natural Flood Management (NFM) – we recommend that reference is made to the need for development proposals in flood risk areas to demonstrate that all reasonable opportunities to use natural flood management techniques or nature-based solutions to reduce flood risk overall have been considered and taken, in line with policy F2: 1.C. of the NPPF. We recommend that this is added to the policy or that it is referenced **in para 4.39**. This is supported by the requirements of policy CC/IW.

Please provide a 100 word summary of your representation.

You may wish to further define what is considered as safe access, change the hights for floor levels and that reference is made to the need for development proposals in flood risk areas

Section 4: Supporting Documents

If you are submitting any supporting documents with your representation, such as maps or further evidence documents, please provide a list.

In parts 1i & 1j we recommend changing '*plus an allowance for climate change'* to '*including an appropriate allowance for climate change.*'

In part 1j the allowance should be changed to **600mm** above the 1 in 100-year flood level (including an allowance for climate change), as this is our current requirement.

Please note your representation should cover succinctly all the information, evidence and supporting information necessary to justify your representation and any proposed modification(s), as there will not be a subsequent opportunity to make further
