Section 3: Your representation

Please set out and explain your comments. Please be as precise as possible, and please do not just refer to an attached supporting document(s). For your representation (comments) to be considered, your representation must be set out here. Wherever possible, set out precisely any changes you think should be made to the plan and its policies.

Sustainable Drainage Systems (SuDS)

We are pleased to acknowledge Policy CC/IW: Integrated water management, sustainable drainage and water quality. We support the inclusion of this Policy and the need for appropriate water treatment and pollution control measures.

Related to 1(b), SuDS should be considered at an early stage as it may be necessary to collect data on seasonal groundwater levels to inform the assessment and design. It would be prudent to detail this in supporting information to ensure the policy is effective. Deep infiltration systems are not considered to be routinely acceptable. A permit from the Environment Agency may be required for such systems.

We support reference to relevant literature including CIRIA SuDS Manual and National Standards for SuDS in the policy, as well as Environment Agency's groundwater protection guidance in the supporting information.

Water Quality

We note the inclusion in section 6.a of the following – "…..*adequate wastewater conveyancing infrastructure to serve the whole development*…" This statement appears to imply that there must be enough infrastructure, not that there must be sufficient capacity within that part of the system. However, the text in the supporting information (4.36) clarifies that capacity must be considered. We welcome the inclusion of phasing conditions where necessary, which will be important to protect water quality. If the supporting information to the policy is taken as part of the policy, then we believe it to be sound.

Please provide a 100 word summary of your representation.

SuDS should be considered at an early stage

Section 4: Supporting Documents

If you are submitting any supporting documents with your representation, such as maps or further evidence documents, please provide a list.

Section 5: Proposed Modifications

Please set out the modification(s) you consider necessary to make the Greater Cambridge Local Plan legally compliant and sound.

You will need to say why each modification will make the Greater Cambridge Local Plan legally compliant or sound. Please put forward your suggested revised wording of any policy or paragraph, being as precise as possible.

Please note your representation should cover succinctly all the information, evidence and supporting information necessary to justify your representation and any proposed modification(s), as there will not be a subsequent opportunity to make further representations other than at the invitation of the Inspector during the Examination process.

Section 6: Participation at the Examination

If you are proposing a modification to the Greater Cambridge Local Plan, do you consider it necessary to participate at the examination hearings?

Examination	**Yes / No**

If you wish to participate at the hearing sessions, please outline why you consider this to be necessary.

Please note: the Inspector will determine the most appropriate procedure to adopt to hear those who have indicated that they wish to participate in Examination hearing sessions.
