Section 3: Your representation

For your representation (comments) to be considered, your representation must be set out here. Wherever possible, set out precisely any changes you think should be made to the plan and its policies.

Please refer to supporting documentation and representations as submitted in full.

Amend the policy so that the 20% biodiversity net gain sought for major development is expressed as an aspiration to be achieved where feasible, rather than as a requirement, with the mandatory 10% net gain established by the Environment Act 2021 retained as the policy requirement.

Reason: the proposed 20% requirement is a significant increase above the mandatory position established by the Environment Act 2021. Applied as a blanket requirement, and in combination with the other policy requirements of the Plan and the emerging Community Infrastructure Levy, it risks unintended consequences for scheme viability and, in turn, for the delivery of affordable housing. The Promoter confirms that the Site would deliver at least the mandatory 10% net gain, with a greater gain secured where this can be achieved without prejudicing viability.

The Promoter would welcome the opportunity to discuss an appropriate policy formulation with the Councils in advance of the hearing sessions.

Please provide a 100 word summary of your representation.
