So the proposal is to create 8000 new dwellings and 20,000 new jobs over the next 20 years in NE Cambridge. But there will be blocks of flats of up to 13 storeys and woefully inadequate green and recreational space. Why? I understand the reason is that Central Government have agreed to provide £227m so that the development can be built on the land currently occupied by the sewage works. Cambridge should refuse this handout for three reasons:

Firstly, the sewage works were upgraded in 2017, they function well and have capacity to continue serving the City for many years. Demolition will be wasteful and environmentally harmful

Secondly, three sites in the Cambridge Greenbelt are being considered for the replacement sewage works. We are told the new sewage works will have tanks that will be the height of eight storey buildings. Such construction should not happen in Greenbelt. Local people are understandably vehemently hostile.

Thirdly, following the pandemic the Government will have to reassess spending priorities. The growth of Cambridge should be reined-in and the £227m should be re-allocated to regions in need of growth stimulus.

If the Action Plan is allowed to proceed it will cause great harm to Cambridge and the surrounding area. It should be aborted!
