

Answer our 10 big questions

1. What do you think about our vision for North East Cambridge?

Comment Seems good in principle but the details are unclear

2. Are we creating the right walking and cycling connections to the surrounding areas?

Comment Unsure. We are confused about how you intend to reduce car activity on Milton Rd for example

3. Are the new 'centres' in the right place and do they include the right mix of activity?

Comment There is no detail so no idea!

4. Do we have the right balance between new jobs and new homes?

Comment How do you intend to create 20,000 new jobs?

5. Are we are planning for the right community facilities?

Comment A decent library is a good idea, but we also need community meeting places & art venues. Farringham seem to have got it right

6. Do you think that our approach to distributing building heights and densities is appropriate for the location?

Comment The buildings are too high, & pop. density too concentrated. You can't compare the top of the Uni. Library tower with an entire block of flats, when you have close in the illustrations

7. Are we planning for the right mix of public open spaces?

Comment I admire the way you have entitled various strips of green as 'linear parks'. If pop densities reduced there could be more green spaces

8. Are we doing enough to improve biodiversity in and around North East Cambridge?

Comment No - See q 7. We need more ^{than} a thin strip of land. Where are the new decent sized greened areas to cater for the growing population?

9. Are we doing enough to discourage car travel into this area?

Comment Concerned what will happen when vehicles come off the motorway & want to travel in to Cambridge. Why will they, if the remnants of NCE decide not to use the motorway - there's no other directions!

10. Are we maximising the role that development at North East Cambridge has to play in responding to the climate crisis?

Comment Probably not, but no idea. The onus is on you to prove it as we do not have the knowledge to decide
