

Answer our 10 big questions

1. What do you think about our vision for North East Cambridge?

Comment

overdeveloped, ill considered
you don't even say why any of this is needed

2. Are we creating the right walking and cycling connections to the surrounding areas?

Comment

you are not providing enough parking though 0.5 spaces per residence is unrealistic - parking will spill into surrounding areas

3. Are the new 'centres' in the right place and do they include the right mix of activity?

Comment

4. Do we have the right balance between new jobs and new homes?

Comment

where are these jobs coming from? You make a bold statement about 20,000 jobs but provide no data

5. Are we are planning for the right community facilities?

Comment

6. Do you think that our approach to distributing building heights and densities is appropriate for the location?

Comment

Absolutely not - it's disgraceful to consider 13 storey buildings + the density is completely inappropriate -

7. Are we planning for the right mix of public open spaces?

Comment

insufficient for the population you intend to live there - will dramatically impact Milton Country Park

8. Are we doing enough to improve biodiversity in and around North East Cambridge?

Comment How does building this development improve ^{biodiversity}? you fail to even mention the impact of moving the sewage works which will have a massive impact (negative) on the climate

9. Are we doing enough to discourage car travel into this area?

Comment

Its naive not to expect people coming into the area not to drive particularly those coming to work - public transport is not enough

10. Are we maximising the role that development at North East Cambridge has to play in responding to the climate crisis?

Comment You are massively impacting the climate crisis by making a sewage works, which does not need to be relocated, move to a new site. It's outrageous that you don't address this in your information. ~~You can't pick the site~~
