Dear Councillors

North East Cambridge Area Action Plan

I am emailing you as I am concerned about your vision for North East Cambridge. These are my concerns:

Need for the development

Is this the right time to be planning such a large development of very high density housing? We are in an economic crisis when Covid-19 has meant a change to working practices. Is that amount of commercial space necessary with home working? Are the planned properties going to provide adequate homes or would prioritising gardens and outdoor space lead to better quality of life?

Connected and integrated *This relies on people being able to walk or cycle to work. It presupposes that everyone living there will be young and active and remain that way. Communities are a mixture of all ages and abilities but this development will not cater for them.*

Building heights and density *Such high density (more than London or Paris) is not appropriate for this area. One and two bedroom dwellings in 13 storey blocks could lead to social isolation and lack of community feeling. It doesn't cater for growing families. Are they expected to move out when children reach secondary school age?*

Open places *Whatever open spaces are planned they cannot compensate for the loss of wide open green belt where the new WWTP is sited. Milton Park is not sufficiently big or open to accommodate so many people.*

Biodiversity *The toll on flora and fauna caused by the construction process cannot be undone. The site chosen for relocation of WWTP for this development will suffer.*

Discouraging car use *Not everyone will be able to walk or cycle to work. As people age or their families grow they will be reliant on cars.*

I understand that to register for this consultation my name will be published with my comment, but that, in line with your privacy statement, my contact details and other personal information will not.

Yours sincerely,

Rosanna
